

A delegation of loyal North Carolinians are in Washington conferring with President Johnson as to the best means of settling up a loyal State government in that State. They complain of great destitution and scarcity of provision, horses, tools and seed in the old North State.

Letters have been received from Governor or Lewis, now at Washington, stating that he expects to be able, in a few days, to forward three or four hundred thousand dollars on account of advances made by the State to the United States for military expenditures, and also that the Wisconsin soldiers mustered out will be sent to their homes and organizations with their arms. It is not yet known what troops will be sent home.

The Tribune's special says, the counsel defending the conspirators are to be paid, if paid at all, by money raised in Baltimore for that purpose.

A letter from Jeff. Davis, found in the assassin's body, amply justifies the charge of conspiracy to murder made against him. The testimony taken in the assassination conspiracy case last Friday, and now made public, shows that the conspiracy dates back to the summer of 1862, and that Booth was then engaged in it. The conspiracy contemplated the capture of President Lincoln, his murder, the burning of Northern cities, creating dissension among the Northern people, at the war, and the bringing about of a revolution in favor of the Confederacy. Booth was a leading agent in the matter, visiting various parts of the country and holding secret consultations in Canada with George N. Sanders, who has since said he did not know Booth—Clay, Holmes, Thompson, and others. Booth was furnished with money from Richmond and was the agent to hire others.

It is stated that Jeff. Davis will not be tried by the military commission for complicity with the assassination, but will be arraigned at once for high treason. He is not to be tried in his wife's petticoats. Governor Brown, of Georgia, passed through Indianapolis yesterday on his way to Washington. Another prime traitor caught.

The Herald's dispatches state most emphatically that Jeff Davis and his Cabinet approved of the manner in which our prisoners at Andersonville and other points in the South, were so inhumanly treated, and that it was their deliberate intention to render them by the slow and cruel process of starvation, unfit for soldiers. Of all the heinous acts of this heinous rebellion, the treatment of our prisoners by the rebels, exceeds them all in unmitigated wickedness.

The capture of the notorious Quantrell, of Lawrence massacre infamy, is announced. A small force of troops under Capt. Terrell came upon him and his gang of guerrillas between Bloomfield and Taylorsville, when the latter broke and ran. Our men pursued, and Capt. Terrell fired on Quantrell, shooting him through the abdomen. The wounded man was carried to an adjacent farmhouse. It is thought he cannot recover.

Mr. CHARLES A. WASHBURN, of California, formerly of Chicago, and now the American Minister to Paraguay, and a member of the Washburn family of Maine, three brothers of whom were members of Congress at the same time, was married in New York, on Thursday last, to Miss Sarah C. Cleveland, of Reading, Pa. Mr. Washburn will return to his post after a brief nuptial tour through the States.

On Tuesday afternoon, about four o'clock, the boiler of the steam-tug Success exploded, while she was engaged, near Old street bridge, Chicago, in towing canal boats to Bridgeport, killing three persons and injuring five others. At that time she had in tow four boats, and had slackened her speed to take the line of a fifth.

About five hundred men are still at Camp Randall, besides some five hundred patients in hospitals. Of these, 325 belong to permanent guard drafted men, of which 224 in number are about to be discharged, leaving forty substitutes as permanent guard of camp and property remaining there.

There seems to be no doubt from the testimony taken at the assassination trial, that the life of President Johnson was to have been taken by Atzeroth. When the moment came, the courage of the wretch seems to have deserted him, and he fled without committing the crime.

The speech of the new French Minister to the President, on Saturday, was characterized by the most friendly and sympathetic spirit towards the United States. Both England and France were to be excessively cordial and lovely, now that the rebellion is ended.

GEN. SHERMAN and wife are to be in Chicago during the Fair, which opens there on the first of June. Rooms have been taken for them at the Tremont house.

GEN. LEE is going to live on a farm near Richmond. He confidently expects to be tried for treason, and pardoned by the President.

A BARBER in Savannah says he has used more than \$100,000 of rebel money for shaving paper.

Two of our best Generals, Sheridan and Sherman, are firm Roman Catholics.

State News.

John Bertschy loaded his vessel *Conquest* at Sheboygan for Buffalo—carried 6,000 bushels of grain over the bar, and put on 3,000 bushels more with lighters. A little girl was burned to death in Waukesha last Saturday, her clothes taking fire while her mother was out of the room. A gentleman from St Paul took out of Hay Brook, in this state, two hundred pounds of trout in four days—fishing only six hours per day. A farmer writing to the *Beloit Journal*, would like to arouse the people in that locality to the importance of cheese-making, and proposes the building of a cheese factory. A letter from the Sixth Wisconsin Regiment to the *Sentinel*, urges the nomination of Secretary Fairchild for Governor. A schoolhouse was burned near Waukesha last Thursday. There was a heavy white frost at Sheboygan, on the 11th inst. A part of Juneau Block in La Crosse is to be transformed into a hotel of first class style. The ground was well covered with snow, up Oconto way last Wednesday.

A Singular Prediction.

Mrs. Lydia Maria Child, in a letter to the *New York Independent*, relates the following note-worthy incident: With regard to the violent manner of his death, have you noticed that it was singularly hinted at by an astrological prediction, months before it happened? A modern believer in astrology, who signs himself Thomas Lister, calculated the horoscope of Abraham Lincoln, and published it in a newspaper, September 29th 1864. It was therein stated that the President was born under Jupiter, a planet whose influence usually made men fortunate in their undertakings. It predicted that he would be re-elected in November, because, astrologically speaking, "his ruling planet will then be transiting over his ascendant in his own house." He goes on to say: "The transit of the evil planet Mars, in opposition with his ascendant, plainly shows that the struggle will continue till April 1865, when the foes of the Union will be compelled to lay down their arms. In December, 1864, and January, 1865, some deep, base plot will be got up against the President, shown by the transit of Mars; and the aspect of the planet shows danger by pistol-shot or some other infernal machine. During these months more than ordinary caution and watchfulness will be highly necessary. After February that evil transit will have passed away. We could increase our remarks concerning the personal danger of the President, but believe forbearance in this case to be a virtue."

A Singular Atmospheric Phenomenon

[From the New York Commercial Advertiser, 12th.] Early last evening, a most singular atmospheric phenomenon for this season of the year was observed. About five o'clock a heavy black cloud made its appearance at the southwest, gradually assuming vast proportions and occasionally emitting vivid flashes of lightning. It rose rapidly, moving to the eastward, and advancing on the city. About half-past six rain descended in torrents for a brief period, accompanied, in portions of Brooklyn, by a severe gale, which unroofed houses and uprooted trees. The lightning was very sharp, and the bolts of Jove struck in several places. Having spent its fury, the cloud passed away to the eastward. This phenomenon is the more singular from the fact that about the time it was first observed in this vicinity, a violent tornado swept over Philadelphia, and destroyed several buildings, etc. It is scarcely possible that this tornado, which visited Philadelphia, was the same as the one which accomplished the destruction in this vicinity. If so, it must have traveled with almost unprecedented rapidity. If not, and there were two distinct tornadoes about the same period of time, about one hundred miles apart, the coincidence is remarkable. We may be able to trace the course of this Philadelphia phenomenon during the day, and learn over how great a tract of territory it extended. It must have caused damage in parts of New Jersey, unless—if it was the same which visited this vicinity—it ricocheted, so to speak, and bounded clear over the State of "Camden and Amboy."

The atmosphere has been heavily charged with electricity for a week past. Although expecting unpleasant weather during anniversary week we were not prepared for so continual a state of rain as we have had.

A REMINISCENCE OF THE REBELLION.—Three days after the passage of the ordinance of secession by Virginia, John Letcher telegraphed the Mayor of Wheeling as follows:

RICHMOND, April 20, 1861.
To Andrew Sweeney, Mayor of Wheeling: Take possession of the custom house, post office, all public buildings and public documents, in the name of Virginia. Virginia has seceded.
JOHN LETCHER, Governor.

REPLY.
WHEELING, April 21, 1861.
To John Letcher, Governor of Virginia: I have taken possession of the custom house, post office, and all public buildings and public documents, in the name of Abraham Lincoln, President of the United States, whose property they are.
ANDREW SWEENEY, Mayor of Wheeling.

It is currently reported that Mr. D. Y. Kilgore, formerly of this city and afterwards of Evansville, who was appointed Quartermaster, with the rank of Captain, while stationed at Nashville, yielded to the temptation of opportunity and defrauded the Government to such an extent that detection and punishment being imminent, he fled to Europe.—*Madison Journal*.

Governor LEWIS writes from Washington as follows: "I have determined as soon as I can leave my business here to visit the extreme Southern hospitals, and procure so far as possible the discharge or transfer to our own State of all Wisconsin soldiers in them, who desire such discharge or transfer."

"What are you doing Pat?" said a gentleman to an Irishman removing an embankment from a dwelling. "I am opening the cellar window, to be sure."

"And what are you doing that for?" "May it please yer honor," said Pat, "to let out the dark."

President Johnson's Residence.

In rather a plain frame building in Raleigh, N. C., the President of the United States was born. The house was shown to me by the owner, a venerable old lady named Stewart. In an ecstasy of delight she told me how on returning from her wedding tour, the first news she got was, "Polly had got a baby." Full of the bright feelings and enthusiasm of a young bride, she rushed in and kissed and hugged the baby. "Little I thought," she exclaimed, "that I was caressing the future President of the United States." "You, then, knew his father and mother?" "Yes, sir I knew them well; they were in our employ for several years." "How did they serve you?" "They were plain hard-working, honest folks, that attended to their business and nothing more." When leaving the old lady said, "How I would like to see him, dear me; only it is so far; but when he would know me. Well, any way, I should like to see him; I think he would grant me one little visit. I have a grandson in prison in the North, perhaps he'd let him home to gladden my old heart—would you mention it to him, sir?" He may read this and gladden the old lady by an act of clemency.

The Wilcox & Gibbs Machine.

BEAVER DAM, WIS., Oct. 22, 1864.
Messrs. L. Cornell & Co., 133 Lake Street, Chicago.
I have been an enthusiast, if not an expert, among the sewing machines. Besides, my wife is practically familiar and experienced with the Wheeler & Ladd, Grover & Baker, Singer, Florence, Ladd & Webster, and others. I have made critical examination and severe tests, particularly investigating all mechanical points, principle, character of stitch, and general practicability of twelve different machines claiming to be "first-class." In the most deliberate judgement, I am entirely satisfied that the Wilcox & Gibbs is so high above all others in practical worth, that it is without a rival. However good and practical others may be—and I would not speak disparagingly—they are in a practical comparison with the Wilcox & Gibbs, but the experiments and confusion of the genius, philosophy and mechanics of childhood, leading on the gradual growth, development and perfection evolved in this full, round utterance of a great idea reduced to the simplest possible form, and working the most satisfactory and practical results. The useless expenditure of thread, and the complication of delicate machinery, so common in other machines, seems to be wholly avoided in the Wilcox & Gibbs, and it will live to see other "first-class" machines forgotten. Mrs. Reid says it is certainly the best, beyond comparison—a practical and beautiful charm. I was delighted at first with the Wheeler & Wilson rotating hook, but the successive experiments of "leather pad," "bristle brush," and metallic "loop controller," and dingling, snarling bobbin, are complicated impracticabilities in the hands of the majority. The rotating hook, as made by Wilcox, and as applied to the Wilcox & Gibbs machine, is the beauty and perfection of simplicity itself, and I have nothing more to expect or ask. Very respectfully,
my18ld1d H. A. REID.

RICHMOND REAL ESTATE.—A speculator who went to Richmond some two weeks ago to make investments in real estate, if he could do so with a prospect of profit, has just returned here. He made no purchases, for the reason that buildings and lots have been already put up to a high figure, the prices in many instances being three times that charged before the war. Lots in the burnt district cannot be had except at prices as great as those charged a year ago for the same lots with the buildings on them. Our informant says the amount per foot is greater than in this city. This is the voluntary tribute of the people to Yankee enterprise and thrift. The only answer to any protest against the extortion being "Times are changed; this year is given to be a big city now, you've have come."—*N. Y. Tribune*.

UNION TRIUMPHS IN NEW JERSEY.—The Newark *Advertiser* says that the tendency of public opinion in New Jersey toward a closer sympathy with the Union cause has been strikingly illustrated by the results of the spring elections in various parts of the State. In nearly all the larger towns where elections have been held there have been large Union gains. In New Brunswick, of late years Democratic, the Unionists carried their city ticket by a considerable majority; in Rahway the Opposition were overwhelmingly defeated; in Camden similar gains were made; and on Monday, at the first municipal election held in Morriston, the Opposition were beaten at all points by a handsome majority. Mr. Geo. T. Cobb was elected Mayor by a majority of 119 over Augustus W. Cutler, the Democratic candidate.

CITY AND COUNTY.

GROWING IN FAVOR.—If Doty's washing machine is not rapidly growing in favor with the community, then we are vastly mistaken, for they not only find a ready sale at the manufactory on Main street, but orders from abroad come in thick and fast, as we observe by the quantities shipped off by rail.

MILWAUKEE SOLDIERS' HOME.—In behalf of this very worthy object a number of the patriotic young people of this city have gotten up a dancing party to come off at McKee's Hall to-night. It will be a pleasant affair and is worthy the patronage of our citizens, which we hope it will generously receive. Tickets for gentlemen and lady \$1.00.

EDITORS GAZETTE.—There being many conflicting accounts about as to what was decided by Judge Dixon on the recent hearing before him, on an application by *habeas corpus* for discharge from arrest by one of the defendants in Judge Noggle's libel suit, I take the liberty of handing you the following letter for publication:

MADISON, May 12th, 1865.
H. K. Whiton, Esq., Janesville:
MY DEAR SIR:—I fear that in the haste and cross-fire of conversation last evening I may have been thrown off my guard and been misunderstood as to the grounds on which I placed my decision. As you may desire a certiorari and it may, perhaps, facilitate your investigations, I wish to make myself clearly understood.

As I understand the authorities submitted by you, a second order of arrest is not impossible in any case—that the question is not whether it can be issued, but whether it ought to be issued in the particular case. For example, that it will not be issued when the plaintiff has voluntarily suffered unsuit without explanation, or when it appears that it is vexatious. But suppose the court or judge having power to issue it, does so, in the first case without explanation, or in the second, it appearing to be vexatious. What then? Is the writ void? Certainly not. It is only irregular. It is improvidently issued and liable to be set aside on motion. Until set aside it is valid in the hands of the officer, and the court in inquiring in such a case upon *habeas corpus* is only reviewing the errors of the court or officer granting the order, which, I understand will not be done. It is like a warrant of attachment issued without sufficient affidavit. If there be any evidence upon which the officer was authorized to act, the warrant is not void, but voidable merely. So I think is your case, and *habeas corpus* does not lie.

The case of a member of the legislature put by you, stands on a different ground. The privilege being shown goes to the power of the officer to order the arrest. He has no such power, and hence relief may be granted upon the writ. As I may seem to have assumed a different ground in my conversation with Mr. Winans, I wish you would show this letter to him and greatly oblige.

Yours very truly,
L. S. DIXON.

Navigation on Rock River.

JANESVILLE, May 17, 1865.
Editors Gazette:—Having heard much of your beautiful city, with its surrounding prairie and its pure, swift running river, I availed myself of the earliest opportunity to visit it. Too much has been said of its enterprise and the beauty of its surroundings, nor have the praises of Rock River been too loudly sung, as I have every reason to know. At the invitation of Capt. Kilmer I went on board the *Prairie Bird*, a boat employed in bringing wood to the city from wood lots about nine miles up the stream. Leaving the landing at 2 o'clock we had a very pleasant sail, the Captain pointing out to us the various objects of interest on either bank. When about five miles out we came in sight of the steamer *Star of the West*, known as Capt. John Allen's boat, which had started about six hours before; and here commenced a very exciting race. Steamer crowded on all steam to keep ahead of the horse power craft, but the latter gaining rapidly, the hands on the former went to work vigorously with poles to aid steamer in the achievement of a triumph, but all to no purpose. Our craft gained landeemly on her competitor and in a few moments left her far down the stream. Arriving at the wood lots, we were gratified to see the amount of wood that may be made available to your city, and which ought to have its influence in cheapening the article of fuel. The *Prairie Bird* having taken on some thirty cords of wood, we made the downward trip in good time, landing safely at the dock, pleased with the excursion and the country through which we passed.

With all the advantages presented to your city by Rock River, Janesville ought to be blessed with cheap fuel and important manufacturing establishments.

Respectfully submitted,
JUDGE CAMERON.

OFFICIAL BULLETIN.

War Department, Washington, May 17.

To Major Gen. Dix:—A review of the gallant armies now assembling around Washington, will take place here on Tuesday and Wednesday of next week.

(Signed) E. M. STANTON, Sec'y of War.

FROM WASHINGTON.

New York, May 17.—The *Commercial's* Washington special says a delegation of twenty citizens from all parts of North Carolina, invited by the President to confer with him on the reconstruction of a loyal State government, have arrived. They report great destitution in the State, and that there are no horses, mules, tools or seeds for planting the crops.

The Government has been advised that the authorities of Nassau extended coaling facilities to the Confederates which are denied United States ships.

The testimony before the military commission to-day shows the whole plan for the capture of Booth, making it apparent that we have the best detective system in the world.

Gen. Sherman is very bitter against the authors of the assaults on him.

A letter from Jeff. Davis, found on Booth's body, fully justifies the charge of conspiracy to murder the President.

The *Post's* special says Jeff. Davis will probably not be tried with the assassins at the military commission, but will be arraigned before the United States Court, and tried for high treason.

New York, May 17.—The *Herald's* Washington correspondent says the question which has long been agitated as to who is responsible for the cruel treatment of our prisoners confined in Libby and other prisons in the South, may now be considered as definitely settled through the testimony of the prisoners themselves.

It appears that Mr. Foote was a member of the committee in the Senate to examine into the treatment of the prisoners and the reports of their harsh usage and starvation. His story as told by his own relatives shows a deeper intention than has been generally supposed, and fastens upon Jeff. Davis and his cabinet a crime both startling and appalling in its details.

Mr. Foote is said states that the investigation showed conclusive evidence that it was decided in a cabinet meeting to reduce the rations served out to the prisoners that it should so weaken their constitution in connection with confinement that it would destroy them as soldiers and make them, when exchanged, worthless.

Senator Foote determined to report these facts to the Senate, but the balance of the committee overruled him and suppressed the facts. My informant further states that it was on this point that the quarrels between Davis and Foote broke out afresh, which resulted in the latter leaving Richmond for a horrid death in a prison cell.

Here, the evidence of Jeff. Davis and his associates' guilt in the diabolical deed of starving our prisoners—deed which makes the most atrocious person shudder to contemplate. Men who will coolly and deliberately plan a scheme like that, will conspire to assassinate a President or any other person. It is a fitting sequel that authors of such deeds should end their career in a cowardly manner, dressed in petticoats. No wonder Jeff. Davis' cloven foot revealed who he was.

The *Tribune's* Washington dispatch says the President's amnesty proclamation is already in type and the proof sheets have been under consideration for several days by the Cabinet.

New York, May 18.—The *Tribune's* correspondent says it is understood that the President's amnesty proclamation will proffer the oath of allegiance to all who have served in the rebel armies up to a certain grade and when accepted to constitute a full exchange of pardon. It is also stated that the full grade and the terms of Gen. Grant's and Sherman's terms of amnesty are to be deferred to, while those officers who shall have been convicted of the horrible cruelties perpetrated upon our prisoners will be tried, and if convicted, punished. Its publication is momentarily expected.

An officer up from Fortress Monroe states that preparations are marking there for confining Jeff. Davis until such time as his presence shall be required for trial here.

Washington, May 17.—A general order has been issued from the War Department as follows: "All the forces of the enemy east of the Mississippi river, having been duly surrendered by their proper commanding officers, to the armies of the United States, and under agreements of parole and disbandment, and there being now no authorized troops of the enemy east of the Mississippi river, it is ordered, that from and after the last day of June, 1865, and all persons found in arms against the United States, or who may commit acts of hostilities against it, east of the Mississippi river, will be regarded as guerrillas, and punished with death. The strict enforcement and execution of this order is especially enjoined upon commanding officers of all United States forces within the territorial limits to which it applies."

According to an order of the War Department, the Adjutant General has been directed to commence mustering honorably discharged soldiers, and to furnish them with service all general, field, and staff officers who are unemployed, and whose service is no longer needed.

FROM KENTUCKY.

Cincinnati, May 18.—The *Gazette's* special says Gov. Brown of Georgia, passed through Indianapolis last night enroute for Washington.

Both houses of the Kentucky Legislature convened yesterday. The House adopted resolutions directing the Committee on the condition of slavery to revise the state slave code.

A committee was appointed to prepare resolutions in relation to the assassination of President Lincoln.

Dispatches from Louisville says the rebel leaders Gatewood and Champ Ferguson are committing great depredations upon the defenceless people of East Tennessee. Large numbers of paroled prisoners from Lee's and Johnston's armies, are traveling through the country robbing and plundering generally.

On the 16th inst. Jeff. Davis, after dividing his specie among his staff and personal escort, and with a few of his faithful followers, including Benjamin and Breckenridge, was attempting to reach the coast when arrested. Basil Duke and several of his field officers have surrendered at Augusta. Davis was expected to reach Nashville last night.

Two hundred and forty prisoners at Camp Chase have taken the oath and been discharged.

FROM NORTH CAROLINA.

New York, May 18.—One of the *Herald's* correspondents writing from Gen. Kilpatrick's cavalry, in camp near Lexington, N. C., says that the planters of the surrounding country are greatly troubled regarding an anticipated scarcity of hands to perform the necessary agricultural labor, and design visiting the North to procure laborers. They say that the negroes, now that they are free, are unreliable, and that the poor whites of the State are too lazy to work.

The dissolution of the rebel army threw loose upon North Carolina, as well as other States, thousands of discontented, plundering, and causing a reign of terror and anarchy. This condition of things has been, to a great extent, terminated by the judicious distribution, at various points throughout the State, of detachments of National troops.

The *Tribune's* despatch from Raleigh dated 12th, says the number of Johnson's army which were paroled at Greensboro has been swelled by the addition of a large portion of Wheeler's command and others received by Major Woodill at Charlotte, N. C., and now amounts to 36,971. Among these are 41 general officers.

FROM NEW ORLEANS.

New York, May 17.—A New Orleans correspondent says it was reported that the blockade running steamer, *Imogene*, arrived at Matanzas on the 10th with 1,000 bales of cotton from Galveston, and landed thirteen passengers en route for England. The *Imogene* sailed on the 11th, ostensibly for Nassau. Her passengers reached Havana on the 11th. It is said that the consul applied officially for permission to send by a tug boat notification of the presence of the *Stone-wall* to Key West, but Gen. Leclerc refused the request.

The Mexican steamer, *Columbia*, was then sent. As she passed the Florida coast signal fires were seen along for twenty miles. On the 7th a steamer appeared off the Moro. She was signalled and suddenly, under all steam, started northwest, displaying the English ensign at the peak and the rebel flag at the fore-top. It was thought she was the *Imogene*.

FROM PHILADELPHIA.

Philadelphia, May 12.—Last evening a colored man got into a River street passenger car and refused all entreaties to leave the car where his presence appeared to be not desired. The conductor of the car, fearful of being fined for ejecting him, as was done by the Judge of one of our courts in a similar case ran the car off the track, detached the horses and left the colored man to occupy the car all by himself. The colored man still firmly maintained his position in the car, having spent the whole of the night there. The conductor looks upon the part he enacted in the affair as a splendid piece of strategy. The matter creates quite a sensation in the neighborhood where the car is standing, and crowds of sympathizers flock around the colored man.

FROM HARRISBURG.

Harrisburg, May 18.—Gov. Brown of Georgia, passed through this city this morning enroute for Washington. It is reported that Jeff. Davis will soon pass through for a like destination.

The camp for mustering out the troops of the central section of the State, will be located in York or Cumberland county.

Mrs. Lincoln and family are expected to pass through here on a special train tomorrow for their new home in Chicago.

FROM NEW YORK.

New York, May 17.—Gold shows rather more strength. The continued high rates of exchange produce an expectation of a partial advance in the premiums and there is less disposition to sell. The price has not materially changed from yesterday's quotations, opening at 1.304, falling to 1.291 and rising again to 1.304.

THE PIRATE "STONEWALL."

New York, May 17.—The steamer *Columbia* from Havana on the 13th has arrived.

The pirate *Stone-wall* was at Bermuda.

U. S. 7-30 LOAN.

The sale of the first series of \$300,000,000 of the 7-30 Loan was completed on the 1st of March, 1885. The sale of the second series of Three Hundred Millions, payable three years from the 10th of June, 1885, was begun on 1st of April. In the short space of thirty days, over One Hundred Millions of this series have been sold—leaving this day less than Two Hundred Millions to be disposed of. The interest is payable semi-annually in currency on the 15th of December and 15th of June by Coupons attached to each note, which are readily cashed anywhere. It amounts to

One cent per day on a \$50 note. Two cents " " " \$100 " Ten " " " \$500 " 20 " " " \$1000 " \$1 " " " \$5000 "

MORE AND MORE DESIRABLE.

The Rebellion is suppressed, and the Government has already adopted measures to reduce expenditures as far as possible to a peace footing, thus withdrawing from market as borrower and purchaser.

This is the ONLY LOAN IN MARKET now offered by the Government, and constitutes the GREAT POPULAR LOAN OF THE PEOPLE.

The Seven-Thirty Notes are convertible on their maturity, at the option of the holder, into

U. S. 5-20 Six per cent.

COLD-BEARING BONDS

Which are always worth a premium

Free from Taxation.

The 7-30 Notes cannot be taxed by Towns, Cities, Counties or States, and the interest is not taxed unless on a surplus of the owner's income exceeding six hundred dollars a year. This fact increases their value from one to three per cent. per annum, according to the rate levied on other property.

SUBSCRIBE QUICKLY.

Less than \$200,000,000 of the Loan authorized by the last Congress are now on the market. This amount, at the rate at which it is being absorbed, will all be subscribed for within two months, when the notes will be undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans. It now seems probable that no considerable amount beyond the present price will be offered to the public.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Banks throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKE, Subscription Agent, Philadelphia.

Subscriptions will be received by the FIRST NATIONAL BANK of Janesville, ROCK COUNTY NATIONAL BANK of Janesville. my16d4c62

THE NINTH NATIONAL BANK OF THE CITY OF NEW YORK.

CAPITAL, \$1,000,000, PAID IN, Fiscal Agent of the United States, AND SPECIAL AGENT FOR JAY COOKE, SUBSCRIPTION AGENT.

Will deliver 7-30 Notes, Free of charge, by express, in all parts of the country, and receive in payment Checks on New York, Philadelphia, and Boston, current bills, and all five per cent. interest notes, with interest to date of subscription. Orders sent by mail will be promptly filled.

This Bank receives the accounts of Banks and Banks on favorable terms; also of individuals keeping New York accounts. J. U. ORVIS, J. T. HILL, Cashier. my16d4c62

A TWOOD'S PATENT DRILLING MACHINE, AND PILE DRIVER, AND HYDRAULIC SAND PUMP.

PRACTICAL TESTS having fully demonstrated the superiority of this machine over all others for the purpose of sinking Oil Wells, the undersigned is now prepared to receive orders for the same.

This machinery comprises everything requisite for the boring of oil wells, excepting the STEAM ENGINE AND CAST IRON DRIVING PIPE, (but will be furnished, if desired, at a reasonable price), and dispenses with the use of the Derrick Rope, Bull wheel and other cumbersome and expensive fixtures now in use, and is so arranged, being constructed on wheels and portable that it can be readily moved for the purpose of sinking wells in different localities.

THE DISTRICT is removed from the well by our Patent Hydraulic process, and does not require the removal of the drill from the boring. This process not only removes all the debris in from 5 to 10 minutes, but likewise effectually cleans out and opens all the small oil veins that are so often entirely closed up by the old process of sand pumping.

WITH THIS MACHINE and a practical engineer a well can be sunk from 400 to 600 feet with an expenditure of from 15 to 50 Dollars after the well has been driven. Arrangements are being made for the construction and delivery of these machines at New York, Norwich, Newburg, N. Y. and Pittsburgh, Penn.

For further information, enquire, please, at the address of the undersigned, at the City of New York. SIMON LELAND, METROPOLITAN HOTEL, New York.
